## DANANG HOUSING DEVELOPMENT JOINT STOCK COMPANY

#### REPORT OF THE BOARD OF GENERAL DIRECTORS

For the first 6 months accounting period of 2025

## Statement of the Responsibility of the Board of General Directors in respect of the Consolidated

- 6. Financial Statements (Cont.)
  - Made judgments and estimates that are reasonable and prudent;
  - The consolidated financial statements of the Company are prepared on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of General Directors is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and that the Consolidated Financial Statements are prepared in compliance with the accounting policies stated in the Notes to the Consolidated Financial Statements. The Board of General Directors is also responsible for safeguarding the assets of the Company and thus taking reasonable steps for the prevention and detection of fraud and other irregularities.

### 7. Approval of the Consolidated Financial Statements

In the Board of General Directors's opinion, the Consolidated Financial Statements consisting of the Consolidated Balance Sheet as at 30 June 2025, Consolidated Income Statement, Consolidated Cash Flow Statement and Notes to the Consolidated Financial Statements enclosed with this report give a true and fair view of the consolidated financial position of the Company as well as its consolidated results of operations and consolidated cash flows for the first 6 months accounting period of 2025.

The Consolidated Financial Statements are prepared in compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System.

#### CONSOLIDATED INTERIM FINANCIAL STATEMENTS REVIEW REPORT

# TO: SHAREHOLDERS, BOARD OF MANAGEMENT AND BOARD OF GENERAL DIRECTORS DANANG HOUSING DEVELOPMENT JOINT STOCK COMPANY

We have reviewed the accompanying consolidated interim financial statements of **Danang Housing Development Joint Stock Company** ("the Company") and its subsidiary, consisting of the Consolidated Balance Sheet as at 30 June 2025, the Consolidated Income Statement, the Consolidated Cash Flow Statement for the first 6 months accounting period of 2025 then ended and Notes to the Consolidated Financial Statements as set out on pages 06 to 46, which were prepared on 29 August 2025.

#### Responsibility of the Board of General Directors

The Company's Board of General Directors is responsible for the preparation and fair presentation of the consolidated interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to the preparation and presentation of the consolidated interim financial statements and also for the internal control that the Board of General Directors considers necessary for the preparation and fair presentation of the consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

#### Responsibility of the Auditor

Our responsibility is to express a conclusion on the consolidated interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements 2410 Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONSOLIDATED INTERIM FINANCIAL STATEMENTS REVIEW REPORT (Cont.)

#### **Auditor's Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not give a true and fair view, in all material respects, of the consolidated financial position of **Danang Housing Development Joint Stock Company** as at 30 June 2025, its consolidated results of operations and its consolidated cash flows for the first 6 months accounting period of 2025 then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to consolidated interim financial reporting.

The Company applies the Vietnamese Accounting Standards, Vietnamese Accounting System for enterprises issued in accordance with the guidance of Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular 53/2016/TT-BTC dated 21 March 2016 amending and supplementing a number of articles of Circular 200/2014/TT-BTC. Circular 202/2014/TT-BTC dated 22 December 2014 and other relevant amending and supplementing circulars guiding on he methods for preparation and presentation of the consolidated financial statements.

#### 2. Disclosure of compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System.

We conducted our accounting, preparation and presentation of the consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory. The consolidated financial statements give a true and fair view of the consolidated financial position of the Company and its consolidated results of operations and cash flows.

For the first 6 months accounting period of 2025

Unit: VND

## 2. Disclosure of compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System(Cont.).

The selection of figures and information presented in the Notes to the consolidated financial statements is complied with the material principles in Vietnamese Accounting Standard No.21 - "Presentation of the statements" and Vietnamese Accounting Standard No. 25 - "Consolidated Financial Statements and Accounting for Investments in Subsidiaries".

This consolidated financial statements should be read in conjunction with the separate financial statements of the parent company and its subsidiaries to obtain complete information on the consolidated financial position and consolidated operating results of the company.

#### IV. APPLICABLE ACCOUNTING POLICIES

#### 1. Basis of financial statement consolidation

The consolidated financial statements include the financial statements of DaNang Housing Development Joint Stock Company and its subsidiary for the first 6 months accounting period of 2025.

Subsidiary is fully consolidated from the acquisition date, which is the date the "Company" effectively gains control over the subsidiary, and cease to be consolidated from the date the "Company" effectively loses control over the subsidiary.

The financial statements of the subsidiary are prepared for the same accounting period as Da Nang Housing Development Joint Stock Company, following accounting policies consistent with those of Da Nang Housing Development Joint Stock Company. Adjusting entries have been made for any differing accounting policies to ensure consistency between the subsidiary and Da Nang Housing Development Joint Stock Company.

All balances between entities within the "Company" and revenues, income, and expenses arising from intra-company transactions, including unrealized profits from such transactions that are included in asset values, are completely eliminated. Unrealized losses arising from intra-company transactions that are reflected in asset values are also eliminated unless the cost that caused the loss is not recoverable.

Non-controlling interests represent the portion of profit or loss and net assets of subsidiary that are not owned by the Company. They are presented separately in the consolidated income statement and separately from the equity of the Company's shareholders in the equity section of the consolidated balance sheet.

Losses incurred by a subsidiary are allocated to non-controlling interests in proportion to their ownership share, even if such losses exceed the non-controlling interests' share of the subsidiary's net assets.

## 2. Principles for recording cash and cash equivalents

Cash includes cash on hand and demand deposit.

Cash and cash equivalents comprise term deposits and other short-term investments with an original maturity of three months or less, highly liquid, readily convertible to known amount of cash and subject to an insignificant risk of changes in value.

#### 3. Principles of accounting for financial investments

#### Principles for trading securities

An investment is classified as a trading security when it is held for the purpose of trading for profit.

Trading securities are recorded in the accounting books at cost. The cost of trading securities is determined based on the fair value of the payments at the time the transaction occurs plus the costs related to the purchase of trading securities.

The time of recording trading securities is the time when the investor has ownership, specifically as follows:

- Listed securities are recorded at the time of matching (T+0);
- Unlisted securities are recorded at the time in which the ownership is acquired as prescribed in regulations of law.

Interest, dividends and profits of periods prior to the purchase of trading securities are recorded as a reduction in the value of the trading securities themselves. Interest, dividends and profits of periods subsequent to the purchase of trading securities are recorded as revenue. Dividends received in shares are only tracked by the number of shares increased, not recorded as the value of shares received/recorded at par value (except for state-owned enterprises in accordance with current regulations of law - only for updating with state-owned enterprises).

# INT VITTO OVEIL

No SEMEN

1 K

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the first 6 months accounting period of 2025

Unit: VND

#### 3. Principles of accounting for financial investments (Cont.)

Provisions for devaluation of trading securities are made for each type of securities traded on the market and have a market price lower than the original price. When determining the fair value of trading securities listed on the stock market or traded on the UPCOM, the fair value of the securities is the closing price at the end of the accounting period. In case the stock market or UPCOM is not trading at the end of the accounting period, the fair value of the securities is the closing price of the previous trading session adjacent to the end of the accounting period.

Increase or decrease in the provision for devaluation of trading securities that needs to be set up at the end of the accounting period is recorded in financial expenses.

#### Principles of accounting for investments in associates

An investment in an associate is recognized when the Company holds from 20% to less than 50% of the voting rights in the investee companies, has significant influence, but does not have control over the financial and operating policy decisions of these companies. Investments in associates are presented in the consolidated financial statements using the equity method.

Under the equity method, initial investments are recorded at cost and subsequently adjusted to reflect the investor's share of changes in the net assets of the associate or joint venture after the acquisition date. The consolidated income statement reflects the Company's share of the post-acquisition results of the associate or joint venture as a separate line item.

The financial statements of associates and joint ventures are prepared for the same accounting period as the Company's financial statements and using consistent accounting policies. Appropriate consolidation adjustments have been made to ensure that the accounting policies are applied consistently with those of the Company, where necessary.

#### 4. Principles for recording trade receivables and other receivables:

Principle for recording receivables: At original cost minus provision for doubtful debts.

The classification of receivables is carried out according to the following principles:

- Accounts receivable from customers reflect commercial receivables arising from purchase-sale transactions between the Company and the buyer, who is an independent unit of the Company.
- Other receivables reflect non-commercial receivables, not related to purchase-sale transactions.

**Provision for bad debts** is made for each bad debt based on the overdue age of the debts or the expected level of loss that may occur, specifically as follows:

- For overdue receivables: The Company estimates the lost value as a loss that is difficult to recover, and sets up provisions according to current regulations.
- For receivables that are not overdue but are unlikely to be recovered: based on the expected level of loss, sets up provisions.

Increases or decreases in bad debt provision balances that need to be adjusted at the end of the accounting period are recorded in corporate management expenses.

#### 5. Principles for recording inventories:

Inventories are stated at the lower of cost and net realizable value.

#### The cost of inventories is determined as follows:

- Raw materials: include purchase costs and other directly relevant costs incurred in bringing inventories to their current location and condition.
- Finished goods: includes the cost of raw materials, direct labor and related general manufacturing costs allocated based on normal levels of activity.
- Work in progress: include the costs of main raw materials, direct labor, and general manufacturing expenses incurred during the construction of unfinished projects.

Method of determining cost of inventories: Weighted Average Method.

Method of accounting for the inventories: Perpetual method.

For the first 6 months accounting period of 2025

Unit: VND

#### 5. Principles for recording inventories (Cont.):

Method of setting up inventory allowance: Inventory allowance is set up for each inventory item whose original cost is greater than its net realizable value. Net realizable value is the estimated selling price of the inventory in the normal course of business less the estimated costs of completion and the estimated costs necessary to consume them. (For unfinished services, the setting up of allowance is calculated for each type of service with a separate price.)

Increases and decreases in the balance of inventory price reduction reserve that must be set up at the end of the accounting period are recorded in cost of goods sold.

#### 6. Principles for recording fixed assets and depreciation of fixed assets:

#### 6.1 Principles for recording tangible fixed assets:

Tangible fixed assets are recorded at cost minus (-) accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures incurred in bringing the asset to its working condition and location for its intended use. The expenditures incurred beyond their originally assessed standard of performance are capitalised as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures that do not meet the above conditions are charged to the expenses for the period.

When assets are sold or disposed, their original costs and the accumulated depreciation, which have been written off and any gain or loss from the disposal of assets are recorded in the income statement.

Determination of original costs of tangible fixed assets:

Tangible fixed assets purchased

The original cost of purchased tangible fixed assets shall consist of the actual purchase price (minus (-) trade discounts or reductions), taxes (excluding taxes to be refunded) and relevant expenses calculated at the time when such fixed assets are put into operation, such as fees for the installation and trial operation of fixed assets, specialists and other direct costs.

The original cost of a tangible fixed asset formed from capital construction under the mode of tendering shall be the finalisation price of the construction project, other relevant direct costs and the registration fee (if any).

Fixed assets which are buildings, structures attached to land use right, the value of land use right is computed separately and recorded as intangible fixed assets.

#### 6.2 Principles for recording intangible fixed assets:

Intangible fixed assets are recorded at their original cost minus (-) accumulated depreciation. The original cost of intangible fixed assets includes all costs incurred by the Company to acquire the fixed assets up to the time the asset is ready for use. Expenses related to intangible fixed assets incurred after initial recognition are recorded as production and business expenses in the period unless these expenses are associated with a specific intangible fixed asset and increase the economic benefits from these assets.

When intangible fixed assets are sold or disposed of, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is recognized as income or expense in the period.

Determination of original cost of intangible fixed assets

Land use right

Land use rights are all actual costs that the Company has spent directly related to the land used, including: money spent to obtain land use rights, costs for compensation, site clearance, site leveling, registration fees, etc. When land use rights are purchased together with houses and structures on the land, the value of land use rights is determined separately and recorded as intangible fixed assets.

Land use rights leased before the effective date of the 2003 Land Law (before 1 July 2004) for which the Company has paid land rent for the entire lease term or has paid land rent in advance for many years, with the remaining paid land lease term being at least 5 years, and a land use right certificate has been issued by a competent authority.

NH TOAT

NĂ

· T

For the first 6 months accounting period of 2025

Unit: VND

#### 6.2 Principles for recording intangible fixed assets (Cont.):

Software programs

Costs relating to computer software programs that are not an integral part of the related hardware are capitalized. The cost of computer softwares is the total cost incurred by the Company up to the date the software is put into use.

#### 6.3 Method of depreciating and amortizing fixed assets

Fixed assets are depreciated on a straight-line basis over the estimated useful lives. Estimated useful lives mean the duration in which the fixed assets produce their effect on production and business.

#### The estimated useful life for assets is as follows:

Buildings and structures	06 - 50 years
Machinery and equipment	06 - 12 years
Transportation and facilities	08 - 15 years
Office equipment	06 years
Software programs	03 - 05 years

Land use rights with a term are amortized in accordance with the land allocation period (50 years).

## 7. Principles of recording and depreciating investment real estate:

**Principles of recognition of investment real estate:** Investment real estate is the right to use land, house, part of house or infrastructure owned by the Company or finance leased for the purpose of earning profit from renting or waiting for price increase. Investment real estate is stated at original cost less accumulated depreciation.

**Original cost of investment property:** Is the total cost that the Company has to pay or the fair value of the consideration given to acquire the investment property up to the time of purchase or completion of construction of that investment property.

Expenses related to investment real estate incurred after initial recognition are recorded as business expenses in the period, unless these expenses are likely to make the investment real estate generate more economic benefits in the future than the initially assessed level of operation, then they are recorded as an increase in the original cost of investment real estate.

When investment properties are sold, their cost and accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in income or expense for the period.

Investment properties held for rental purposes are depreciated using the straight-line method over their estimated useful lives

## The estimated useful lives of investment properties held for rental purposes are as follows:

Buildings and structures

15 years

Land use rights with a term are amortized in accordance with the land allocation period (50 years).

#### 8. Principles for recording prepaid expenses

Prepaid expenses at the Company include actual expenses that have been incurred but are related to the business results of many accounting periods. Method of allocating prepaid expenses: Calculating and allocating prepaid expenses to business operating expenses each period according to the straight-line method.

The company's prepaid expenses include the following expenses:

Tools and supplies: Tools and supplies already put into use are allocated to expenses using the straight-line method with an allocation period not exceeding 3 years.

Repair costs: One-time repair costs of high value are allocated to expenses using the straight-line method with an allocation period not exceeding 3 years.

Insurance costs: Vehicle physical insurance costs and fire and explosion insurance costs incurred each time are allocated to expenses using the straight-line method with an allocation period not exceeding 1 year.

Other prepaid expenses: Other expenses already put into use are allocated to expenses by the straight-line method with an allocation period not exceeding 3 years.

#### 9. Principles for recording liabilities

Liabilities are recognized for amounts to be paid in the future for goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of payables as accounts payable to suppliers, accrued expenses and other payables is carried out according to the following principles:

- Payable to suppliers reflect trade payables arising from purchases of goods, services, assets and suppliers are independent units of the Company.
- Other payables reflect non-commercial payables, not related to transactions of buying, selling or providing goods and services.

#### 10. Principles for recording loans

The value of loans recorded is the total amount borrowed from banks and organizations.

Loans are tracked in detail for each lending entity, each debt agreement and each type of debt asset.

#### 11. Principles for recording borrowing costs

**Principles for recording borrowing costs**: Borrowing costs include interest expenses. Borrowing costs are recognized as an expense when incurred.

#### 12. Principles for recording accrued expenses

Accrued expenses represent interest expenses and amounts payable for goods or services that have been received from suppliers or delivered to customers but have not yet been paid due to the absence of invoices or incomplete accounting documentation.

#### 13. Principles for recording unrealized revenue

Unearned revenue is revenue that will be recorded corresponding to the obligations that the Company will have to perform in one or more subsequent accounting periods.

Unearned revenue includes the amount of money customers have paid in advance for one or more accounting periods for asset leasing; interest received in advance when lending capital or purchasing debt instruments; the difference between the deferred or installment sales price as committed and the cash sales price, revenue corresponding to the value of goods, services or the amount of discounts for customers in traditional customer programs.

The method of allocating unearned revenue according to the principle is consistent with the obligations that the Company will have to perform in one or more subsequent accounting periods.

#### 14. Principles for recording Owner's Equity

#### Principles for recording Owner's Equity

Owner's contributed capital is recorded according to the actual amount of capital contributed by shareholders.

**Share premium:** Share premium is recognized as the difference between the issuance price and the par value of shares from the initial issuance or additional issuances, the difference between the re-issuance price and the book value of treasury shares, and the equity component of convertible bonds upon maturity. Direct costs related to additional share issuances and the re-issuance of treasury shares are deducted from the share premium.

#### Principles for recording undistributed profit

Profit after corporate income tax is distributed to shareholders after funds have been appropriated according to the Company's Charter as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to shareholders takes into account non-monetary items included in undistributed after-tax profits that may affect cash flow and the ability to pay dividends such as profits from revaluation of assets contributed as capital, profits from revaluation of monetary items, financial instruments and other non-monetary items.

Dividends are recorded as liabilities when approved by the General Meeting of shareholders.

#### 15. Principles for recording treasury shares

When the Company repurchases its own shares, the amount paid, including any transaction costs, is recorded as treasury shares and presented as a deduction from equity.

For the first 6 months accounting period of 2025

Unit: VND

#### 16. Principles for recording revenues

#### Principles and methods of recording revenue from sales of goods

Revenue from sales of goods is recognized when all of the following five conditions are met simultaneously: 1. The enterprise has transferred the significant risks and rewards associated with ownership of the product or goods to the buyer. 2. The enterprise no longer retains control over the goods as the owner or controller. 3. The revenue is reasonably determinable. When the contract allows the buyer to return the purchased product or goods under specific conditions, revenue is recognized only when those specific conditions no longer exist, and the buyer is not entitled to return the product or goods (except in cases where customers have the right to return goods in exchange for other goods or services). 4. The enterprise has received or will receive economic benefits from the sales transaction. 5. The costs related to the sales transaction are identifiable.

#### Principles and methods of recognizing revenue from services rendered

Revenue from services rendered is recognized when the outcome of that transaction can be determined reliably. In case the service is performed in many periods, the revenue recognized in the period is based on the results of the work completed at the end of the accounting period.

The results of a services rendered are determined when all four (4) conditions are met: 1. Revenue can be determined relatively reliably. When the contract stipulates that the buyer is entitled to return the purchased services under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer is not entitled to return the purchased services. provide; 2. Able to obtain economic benefits from the transaction providing that service; 3. Determine the work completed at the end of the accounting period; 4. Determine the costs incurred for the transaction and the costs to complete the services rendered.

#### Principles and methods of recognizing revenue from construction contracts

For construction contracts that stipulate that the contractor pays according to the value of the volume performed: When the results of construction contract performance are reliably determined and confirmed by the customer, revenue and costs related to the contract are recorded in proportion to the completed work portion confirmed by the customer received during the period reflected on the issued invoice.

Increases and decreases in construction volume, compensation revenues and other revenues are only recorded as revenue when agreed upon with customers.

When the results of performance of a construction contract cannot be reliably estimated, then: Revenue is only recorded equivalent to the contract costs incurred whose repayment is relatively certain; Contract costs are only recorded as expenses when incurred.

The difference between the total accumulated revenue of the recorded construction contract and the accumulated amount recorded on the payment invoice according to the planned progress of the contract is recorded as a receivable or payable according to the planned progress of construction contracts.

#### Principles and methods for recognizing rental income

Rental income from leased property is recognized based on the principle of allocating the prepaid rental amount in accordance with the lease term.

#### Principles and methods of recording revenue from financial activities

Revenue from financial activities is recognized when two conditions are simultaneously satisfied: 1. It is possible to gain benefits from that transaction; 2. Revenue is determined relatively reliably.

Finance income includes: Interest on deposits, capital usage fees, profit from sale of securities and gain from investment liquidation.

Interest is recognized on an accrual basis, determined on the balance of deposit accounts and the actual interest rate each period.

When it is impossible to recover an amount that was previously recorded in revenue, the potentially irrecoverable or uncertainly recoverable amount must be accounted for in expenses incurred in the period and not recorded as a decrease in revenue.

For the first 6 months accounting period of 2025

Unit: VND

#### 17. Principles and method of recording cost of goods sold

Cost of goods sold reflects the cost of products, construction works, and services sold during the period, which is recognized in the cost of sales or as a deduction from cost of sales in the reporting period. Costs are recognized at the time when the transaction occurs or when it is reasonably certain to occur in the future, regardless of whether payment has been made. Cost of goods sold and revenue are recognized concurrently in accordance with the matching principle. Any costs exceeding normal consumption levels are immediately recognized in cost of sales in accordance with the prudence principle.

#### 18. Principles and methods of recording financial expenses

Financial costs include: Interest expenses, losses on securities investments, provision/reversal of provision for devaluation of securities, and other expenses.

Financial expenses are recorded in detail for each expense item when actually incurred during the period and determined reliably when there is sufficient evidence of these expenses.

## Principles and methods for recording current corporate income tax expenses and deferred corporate income tax 19. expenses

Corporate income tax expense includes current corporate income tax expense and deferred corporate income tax expense incurred during the period as a basis for determining the Company's after-tax business results for the current accounting period.

Current income tax is a tax calculated based on taxable income. Taxable income differs from accounting profit due to adjustment of temporary differences between tax and accounting, non-deductible expenses as well as adjustment of non-taxable income and losses moved.

**Deferred income tax** is the corporate income tax that will be payable or refunded due to the temporary difference between the book value of assets and liabilities for the purpose of preparing financial statements and tax basis. income. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized only when it is probable that taxable profits will be available in the future against which these deductible temporary differences can be utilized.

The company has been subject to tax inspection until 2017, the subsidiary has not been.

Taxes payable to the state budget will be specifically settled with the tax authority. The difference between the tax amount payable according to the books and the finalization check data will be adjusted when there is an official settlement with the tax authority.

Tax policy according to the conditions prescribed for the company in the current period is as follows: The company applies a corporate income tax rate of 20%.

#### 20. Principles for recording earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to the ordinary shareholders after deducting bonus and welfare funds for the accounting period of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is calculated by the profit or loss attributable to the ordinary shareholders (after adjusting dividends of preferred conversible shares) the weighted average number of ordinary shares outstanding during the period and the weighted-average number to be issued in case where all dilutive potential ordinary shares are converted into ordinary shares.

#### 21. Financial instruments:

#### Initial recognition:

#### Financial assets

According to Circular No. 210/2009/TT-BTC dated 6 November 2009 ("Circular 210"), financial assets are classified appropriately, for disclosure purposes in the Consolidated Financial Statements, into financial assets are recorded at fair value through the Consolidated Income Statement, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The Company decides to classify these financial assets at the time of initial recognition.

At the time of initial recognition, financial assets are determined at cost plus related direct transaction costs.

Page 21

For the first 6 months accounting period of 2025

Unit: VND

#### 21. Financial instruments (Cont.):

The Company's financial assets include cash, short-term deposits, accounts receivable from customers and other receivables.

#### Financial liabilities

Financial liabilities within the scope of Circular 210 are, for disclosure purposes in the consolidated financial statements, appropriately classified as financial liabilities recognized through the Consolidated Income Statement, financial liabilities are determined according to allocated value. The Company determines the classification of financial liabilities at the time of initial recognition.

All financial liabilities are initially recognized at cost plus directly related transaction costs.

The Company's financial liabilities include debts and loans, accounts payable to suppliers, accrued expenses and other payables.

#### The following value is recorded for the first time

There is currently no requirement to re-determine the value of financial instruments after initial recognition.

#### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the consolidated financial statements if, and only if, the entity has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

#### 22. Related parties

According to Accounting Standard No. 26 - Information about related parties at the company is as follows:

- (i) Enterprises that control, or are controlled directly or indirectly through one or more intermediaries, or are under common control with the reporting enterprise (including subsidiaries);
- (ii) Associate (as prescribed in Accounting Standard No. 07 'Accounting for Investments in Associates');
- (iii) Individuals who have, directly or indirectly, voting rights in the reporting enterprises that result in significant influence over these enterprises are considered related parties, including their close family members. Close family members of an individual are those who may influence, or be influenced by, that individual in their dealings with the enterprise, such as: father, mother, spouse, children, and siblings.
- (iv) Key management personnel are those who have authority and responsibility for planning, directing, and controlling the activities of the reporting enterprise. This includes the company's directors, management personnel, and their close family members.
- (v) Enterprises that are directly or indirectly controlled through significant voting rights by individuals referred to in cases (iii) or (iv) of Section 22 of this document, or over which such individuals may have significant influence. This includes enterprises owned by the key management personnel or major shareholders of the reporting entity, as well as enterprises that share key management personnel with the reporting entity.

In considering each relationship between related parties, it is necessary to pay attention to the nature of the relationship, not just the legal form of those relationships.

#### 23. Principles for presenting assets, revenue, and business results by department

Business divisions include divisions by business fields and divisions by geographical areas.

A business segment is a distinguishable component of the Company that is engaged in the production or provision of an individual product or service, or a group of related products or services. This segment has risks and economic benefits that are different from other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in producing or providing products or services within a particular economic environment in which this segment is exposed to risk. economic risks and benefits are different from those of business segments in other economic environments.

#### 24. Accounting estimates

The preparation of the consolidated financial statements in compliance with Vietnamese Accounting Standards and the relevant statutory requirements applicable to the preparation and presentation of the consolidated financial statements requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, and the disclosure of contingent liabilities and assets as of the reporting date, as well as the reported amounts of revenue and expenses during the accounting period.

The estimates and assumptions that have a significant impact on the consolidated financial statements include: the fair value of net assets at the acquisition date, the amortization period of prepaid expenses, fixed assets, the allocation of goodwill (if any), accrued expenses, provisions, deferred income tax, and the allocation of non-controlling interests.

The estimates and assumptions are regularly assessed based on past experience and other factors, including future assumptions that have a significant impact on the Company's consolidated financial statements and are considered reasonable by The Board of General Directors.

<sup>\*</sup> Remaining value of investment properties used as mortgage or pledge to secure loans: VND 1,128,090,842.

#### 12. Deferred tax assets

Deferred tax assets have not been recognized at the subsidiary - Da Nang Ngoc Hoi Water Supply Joint Stock Company for the following items:

	30/06/2025	01/01/2025
Non-deductible interest expenses	5,801,173,175	5,643,723,003
Total	5,801,173,175	5,643,723,003

<sup>\*</sup> Original cost of investment properties fixed assets at the end of the year has been fully depreciated but still in use: None.

<sup>\*</sup> Data explanation and other explanations: At the reporting date, the Company has not determined the fair value of the investment properties held for explanation in the Consolidated Financial Statements because the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime currently do not have guidance on how to calculate fair value using valuation techniques. The fair value of these investment properties may differ from the carrying value. However, based on the leasing situation and market prices of these properties, the Board of Directors believes that the fair value of the investment properties is greater than the carrying value at the end of the accounting period.

For the first 6 months accounting period of 2025

Unit: VND

#### 12. Deferred tax assets (Cont.)

The expiration periods of the interest expense carried forward to subsequent years are as follows:

Year of non-deductible interest expense	Status of tax inspections by the tax authorities	Non-deductible interest expense incurred	Utilized interest expense	Interest expense carried forward to future tax periods
Year 2020	Unfinalised	1,763,042,825	-	1,763,042,825
Year 2021	Unfinalised	1,449,686,696	₩:	1,449,686,696
Year 2022	Unfinalised	1,040,752,259	= 20	1,040,752,259
Year 2023	Unfinalised	907,744,697	_	907,744,697
Year 2024	Unfinalised	482,496,526	<b>=</b> ,	482,496,526
the first 6 months of 2025	Unfinalised	157,450,172	<u> </u>	157,450,172
Total		5,801,173,175		5,801,173,175

The portion of interest expense that is non-deductible may be carried forward to future tax periods when calculating the total deductible interest expense, in cases where the total deductible interest expense incurred in the following taxable period is lower than the threshold specified in Point (a), Clause 3, Article 16 of Decree No. 132/2020/ND-CP. The carryforward period for such interest expense is continuous and shall not exceed five years from the year immediately following the year in which the interest expense was disallowed. Deferred tax assets are not recognized for these amounts as it is currently not probable that sufficient future taxable profits will be available to utilize these deductions for tax purposes in the upcoming periods

Taxes payable to the State Treasury will be specifically settled with the tax authority. The difference between the tax amount payable according to the books and the finalization check data will be adjusted when there is an official settlement with the tax authority.

#### Describe how to determine taxes, fees, and charges payable.

#### VAT

The company pays VAT according to the deduction method. VAT tax rate is as follows:

<ul> <li>Value added tax rate for domestic water supply services</li> </ul>	
- Value added tax rate for construction and service provision	

In the first 6 months of the year, the Company is entitled to a VAT reduction according to Decree No. 180/2024/ND-CP reducing VAT by 8% from 1 January 2025 to 30 June 2025 và and Resolution of the 8th Session, Resolution No. 174/2024/QH15 dated 30 November 2024.

#### Corporate income tax

Income from business activities is subject to corporate income tax at a tax rate of 20%.

#### Resources tax

The Company is subject to resource tax for surface water extraction activities serving domestic water supply plants, at a tax rate of 1%.

#### Land and housing taxes

The Company leases land located at Residential Group 5, Bo Y Commune, Quang Ngai Province, under Land Lease Decision No. 1401/QĐ-UBND dated 16 November 2016. The lease term is from December 2016 to November 2066. The Company is exempt from land lease fees under Decision No. 6848/QĐ-CT dated 14 December 2016. The leased land area is 2,783.3 square meters, with a lease term of 50 years.

#### **Environmental protection fee**

The amount of environmental protection fees collected by the Company for wastewater and emissions is equivalent to 10% of revenue from domestic water supply services. Of this amount, 90% must be remitted to the State.

#### Other taxes

The Company declared and paid according to the regulations.

### VII. OBJECTIVES AND FINANCIAL RISK MANAGEMENT POLICIES

The main risks from financial instruments include market risk, credit risk and liquidity risk

The Board of General Directors reviews and applies management policies for the above risks as follows:

### 1. Market risks

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risks: interest rate risk, currency risk, and other price risks, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, and deposits.

Sensitivity analyses, as presented below, are related to the financial position of the Company as at 30 June 2025, and 31 December 2024.

These sensitivity analyses have been prepared based on the carrying amounts of net debts, the proportion of fixed-rate debts to floating-rate debts, and the correlation ratio of financial instruments denominated in foreign currencies, which remain unchanged.

When calculating sensitivity analyses, the Board of General Directors assumes that the sensitivity of financial instruments ready for sale on the Consolidated Balance Sheet and related items in the Consolidated Income Statement is affected by corresponding changes in market risk assumptions. This analysis is based on the financial assets and financial liabilities held by the Company as at 30 June 2025 and 31 December 2024.

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate with changes in market interest rates. Market risks due to changes in interest rates of the Company mainly relate to the Company's loans and debts, cash and short-term deposits.

The Company manages interest rate risk by analyzing the competitive situation in the market to obtain interest rates that are beneficial for the Company's purposes and remain within its risk management limits.

For the first 6 months accounting period of 2025

Unit: VND

### 2. Credit risk

Credit risk is the risk that a party to a financial instrument or customer contract will not fulfill its obligations, leading to financial loss. The Company has credit risk from its production and business activities (mainly for accounts receivable from customers) and from its financial activities, including bank deposits.

### Receivable from customers

The company minimizes credit risk by only transacting with units with good financial capacity. The company regularly closely monitors receivables to urge collection. On this basis and the Company's receivables relate to many different customers, credit risk is not concentrated on a certain customer.

### Bank deposits

The company mainly maintains deposits at large reputable banks in Vietnam. The Company finds that the concentration of credit risk in bank deposits is low.

The Company's Board of General Directors assesses that most of the financial assets are current and not impaired because these financial assets are related to reputable and solvent customers, except for overdue and impaired receivables presented in the following table:

	Not over	due	Overd	ue
	Not impaired	Impaired	Not impaired	Impaired
30 June 2025

Provision for devaluation	-			(2,628,443,799)
Net value	60,256,408,350	<u> </u>	(S)	147,167,943

### 3. Liquidity risk

Liquidity risk is the risk that the Company will have difficulty fulfilling its financial obligations due to lack of capital. The Company's liquidity risk mainly arises from the fact that financial assets and financial liabilities have different maturity dates.

The Company monitors liquidity risk by maintaining a level of cash and cash equivalents and bank loans that the Board of General Directors considers sufficient to meet the Company's operations and to minimize the impact of cash flow fluctuations.

The table below summarizes the payment terms of the Company's financial liabilities based on expected contractual payments on an undiscounted basis:

30 June 2025	Under 1 year	From 1-5 years	Over 5 years	Total
Loans and debt	32,826,145,805	3,592,958,001		36,419,103,806

The company has adequate access to capital sources and loans due within 12 months can be rolled over with existing lenders.

### 4. Collateral

The company has used part of its machinery, transportation vehicles, buildings and structures, land use rights, and real estate as collateral for bank loans (Note V.19 – Loans).

The Company does not hold any secured assets of the third party as at 30 June 2025 and 31 December 2024.

### VIII. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

See presentation on page 46.

The fair value of financial assets and financial liabilities is reflected at the amount for which the financial instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company uses the following methodology and assumptions to estimate fair value:

The fair values of cash and cash equivalents, trade receivables, trade payables, and other short-term liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

Except as mentioned above, the fair value of the financial assets and long-term financial liabilities has not been formally assessed and determined as of 30 June 2025 and 31 December 2024. However, the Board of General Directors of the Company assesses that the fair value of these financial assets and financial liabilities has no material difference compared to the carrying value as at the end of the accounting period.

<u>L</u>	Loan repayment		4,000,000,000

### 3b.2. Balances with other related parties

Balances to related parties are presented in the receivables and payables section in the Notes V3b, V20a.

Trade receivables from other related parties are unsecured and will be settled in cash. No allowance for doubtful debts has been made for receivables from other related parties.

### 4. Present assets, revenue, and business results by department

The Company's Board of General Directors has determined that the Company's management decisions are primarily based on the types of products and services provided by the Company and not on the geographical areas in which the Company provides its products and services. Therefore, the Company's primary reporting is by business segment.

### Primary segment reporting: by business sector

### a. Report on business results of business segments by business sector for the first 6 months accounting period of 2025

The Company reports its operations by business segments: sales of finished products and goods, service rendered and construction contract. The Company analyzes net revenue and cost of goods sold by segment as follows:

Net revenue	Cost of sales	<b>Gross profit</b>
17,561,112,958	16,679,107,957	882,005,001
2,119,969,124	1,193,276,392	926,692,732

### V.2. Financial investments (Cont.)

## Disclosure of additional information regarding an investment in associate

According to Enterprise Registration Certificate No. 0401402429, amended for the 9th time and issued by the Department of Planning and Investment of Da Nang City on 26 May 2025, the Company registered an investment of VND 9,585,000,000 in New Light Ray Investment Joint Stock Company, equivalent to 24.58% of its charter capital. As at 30 June 2025, the actual capital contribution ratio was 37.14%. Operational status in the first 6 months of 2025: the business was profitable, but due to accumulated losses, full provisions have been made. (\*) The fair value of the long-term investment in the associate has not been formally assessed and determined as at 30 June 2025, and 31 December 2024, as the company is not listed on any stock exchange and therefore does not have a reliable reference price. The fair value of this investment may differ from its carrying amount.

### Transactions with an associate

The significant transaction between the Company and its associate are as follows:

Conversion of loan principal and interest into an investment in an associate

The first 6 months The first 6 months of 2025 of 2024

7,055,000,000

The notes to the consolidated financial statements form an integral part of this report.
